

Teri Lindseth Artist's Statement

My paintings are shaped and sculpted using a palette knife to create one of a kind, unique art that will brighten your home and warm your heart. My paintings represent the beauty and innocence found in nature. I strive to create a painting that pulls at your heart strings, soothes your inner being, and beg to be touched. The trees lift off the canvas, with the leaves ready to be plucked. The paintings are meant to be enjoyed with your fingers as much as your eyes!
